CJSC "STS Teknovud"

Tax ID: 2528003758

Category: Лесопромышленный комплекс

Description:

The official founding date of CJSC "STS Teknovud" is June 19, 1997.

The company's primary product is kudabashira, glued laminated timber for traditional Japanese house construction. Since the products are exported to Japan, the factory has received JAS (Japan Agricultural Standard) certification from the Japanese Ministry of Agriculture, Forestry, and Fisheries.

For construction timber requiring high strength, Primorsky spruce is ideally suited.

The production process is structured as follows: after preliminary rough sorting by diameter, the logs are fed into a Valon Kone debarking machine (Finland) and transferred to the sawmill, which is fully equipped by CKS.

Additional Information:

16.10.1 Manufacture of sawn timber, except profiled, over 6 mm thick; manufacture of untreated railway and tramway sleepers from wood

16.10.9 Provision of wood impregnation services

16.23 Manufacture of other wooden construction structures and joinery

LLC "FORESTGRAND"

Tax ID: 2510015431

Category: Лесопромышленный комплекс

Description:

LLC "ForestGrand" is located in Spassk-Dalny, Primorsky Krai, founded in 2018, and is a comprehensive wood-processing enterprise engaged in logging, production of round timber, veneer, and lumber from hardwood, softwood, and coniferous species.

The forest area exceeds 500,000 hectares, allowing the harvesting of 300,000 m³ of timber annually. Wood processing includes a sawmill section: 11 modern lines (made in China), Artiglio lines (made in Italy), and 4 veneer production lines. This enables processing species such as oak, ash, linden, birch, elm, and spruce, producing 300 m³ of lumber per shift.

With 40 drying chambers, we can produce up to 3,000 m³ of dried lumber.

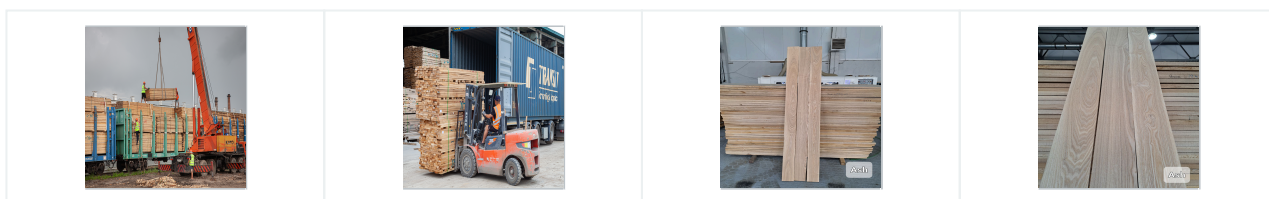

We sell and deliver our products throughout Russia, but 80% is exported to China, South Korea, Kazakhstan, Georgia, and Belarus.

Additional Information:

4403950000 - Other birch (betula spp.) lumber, with smallest cross-sectional dimension of 15 cm or more, not treated, with or without bark or sapwood or roughly squared or not; 4403970002 - Other aspen (populus adenopoda, populus davidiana, populus grandidentata, populus sieboldii, populus tremula, populus tremuloides) lumber, not treated, with or without bark or sapwood or roughly squared or not; 4403990009 - Other lumber not treated, with or without bark or sapwood or roughly squared or not; 4407129901 - Coniferous lumber of fir (abies spp.) and spruce (picea spp.), obtained by sawing or splitting lengthwise, planing or peeling; with or without end joints, over 6 mm thick, moisture content not exceeding 22%; 4407919001 - Oak (quercus spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling; with or without end joints, over 6 mm thick, moisture content not exceeding 22%; 4407919006 - Oak (quercus spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling; with or without end joints, with two or more flat-parallel surfaces obtained by sawing, over 6 mm thick, other; 4407939901 - Maple (acer spp) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, over 6 mm thick; 4407939906 - Maple (acer spp) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, with two or more flat-parallel surfaces obtained by sawing, over 6 mm thick, other; 4407959901 - Ash (fraxinus spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, over 6 mm thick; 4407959906 - Ash (fraxinus spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, with two or more flat-parallel surfaces obtained by sawing,

over 6 mm thick, other; 4407969002 - Birch (betula spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, over 6 mm thick, moisture content not exceeding 22%, other; 4407999005 - Other species lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, over 6 mm thick, moisture content not exceeding 22%, other; 4407999007 - Other species lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, with two or more flat-parallel surfaces obtained by sawing, over 6 mm thick, other; 4409299200 - Other hardwood lumber: strips, moldings and friezes for parquet or wood floor covering, unassembled.

LLC «PK «Serafimovskiy»

Tax ID: 2540125760

Category: Лесопромышленный комплекс

Description:

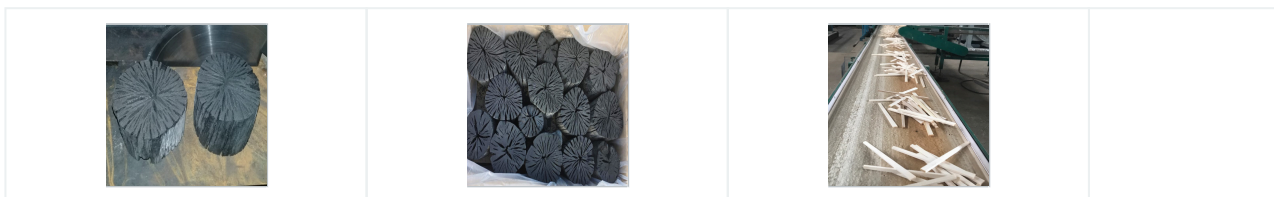

PK Serafimovsky LLC manufactures chopstick blanks and eco-friendly, odorless, smokeless, non-toxic charcoal. Premium products use aspen (chopsticks) and oak (charcoal), with alternatives available. The company owns full-cycle facilities, including production sites, warehouses, and charcoal kilns. Monthly output: 60–85 tons of chopsticks and 30–60 tons of charcoal. With minimal local competition, the company targets exports to China, South Korea, and Japan, with global potential due to growing Asian cuisine popularity. Charcoal is ideal for restaurants, hookah lounges, and tea ceremonies. A resident of the Far East and Arctic Development Corporation (KRDV).

LLC «Spasskiy Lesopererabatyvayushchiy Kompleks-Grupp» (OOO «SLPK-Grupp»)

Tax ID: 2510014886

Category: Лесопромышленный комплекс

Description:

Spassky Timber Processing Complex-Group (SLPK-Group LLC) was established in March 2017. Currently, it is a medium-sized enterprise with 225 employees, 85% of whom are residents of Primorsky Krai (Spassk-Dalny and Spassky District), with an average age of 35. Annually, students from the Bauman Moscow State Technical University's Mytishchi branch undergo internships here. Since 2019, SLPK-Group has been listed as a socially significant enterprise in Spassk-Dalny.

The production site's location in Spassk-Dalny is strategically advantageous, situated 500 meters from the Vladivostok-Khabarovsk federal highway and 220 km from Vladivostok, minimizing transport costs to the port.

SLPK-Group LLC is steadily progressing toward its main goal—creating a world-class wood-processing facility using high-end equipment and cost-effective, high-quality Russian raw materials. Over the years, the company has established drying facilities with 10 chambers, launched Slovak StrojCad D9 Duplex sawing lines, a Turkish USTUNKARLI sawing workshop, sharpening equipment, and obtained thermal phytosanitary treatment licenses.

Additionally, it has introduced a pellet workshop with a German Amandus Kahl granulation line, another StrojCad D9 Duplex line, a modern boiler room with Kovrovskie boilers, thermal treatment certification, and a self-propelled Amkodor wood chipper (Belarus). The debarking section was expanded, transport capacity increased with 20 covered railcars, and the pellet workshop upgraded with domestic "Mekhanika-Trans" hammer mills, screens, and dispensers.

In 2023, the company opened a furniture panel workshop, creating 50 new jobs, with plans for a veneer production workshop underway. Total investments exceed 2.1 billion rubles, reflecting the company's commitment to Spassk-Dalny's development.

In 2019, SLPK-Group received FSC certification for responsible forest management, continuing these principles despite its 2023 annulment.

Current products include sawn lumber (planed/unplaned, moisture-adjusted), custom-sized furniture panels (oak, ash, elm), and A1-grade softwood pellets (650 kg big bags, min. 26-ton shipments). Half of the output is exported to China and South Korea, with the rest sold domestically, including thermally treated lumber and cat litter pellets.

Additional Information:

4407 12 – coniferous lumber

4407 91 – oak lumber (*Quercus* spp.)

4407 95 – ash lumber (*Fraxinus* spp.)

4407 97 – poplar and aspen lumber (*Populus* spp.)

4407 99 – other hardwood lumber (elm, linden)

4418 99 200 0 – furniture panel (laminated wood)

4401 31 000 0 – wood pellets
