

# Federalnyy Nauchnyy tsentr Agrobiotekhnologiy Dalnego Vostoka im. A. K. Chayki

**FSBSI "A.K. Chaika Far East Federal Research Center for Agricultural Biotechnology"** — is one of the leading agricultural research institutions in the Russian Far East. The Center conducts a wide range of research in crop production (breeding, seed production, agronomy, plant protection), animal husbandry (beekeeping), environmental management and land development, agricultural economics, and plant biotechnology. The A.K. Chaika Far East Federal Research Center for Agricultural Biotechnology has extensive experience in developing agricultural crop varieties and has made significant contributions to providing agricultural producers with new varieties featuring high yields and adaptability to the region's soil, climatic, and farming conditions. Today, the Center's main research areas include: — Agricultural crop breeding; — Seed production (foundation, elite) of field, forage, vegetable crops, and potatoes; — Development of new agricultural crop varieties using biotechnological methods; — Mechanization, economics, and organization of agricultural production in farms of all ownership types; — Development and improvement of highly efficient resource- and energy-saving crop cultivation technologies; — Development of next-generation farming systems; — Development of environmentally sustainable farming systems; — Beekeeping development and establishment of a stable forage base using new forage crops and cultivation technologies for livestock farming in Primorsky Krai; — Educational activities. The Center employs 213 people, including 1 academician of the Russian Academy of Sciences, 2 doctors of sciences, and 26 candidates of sciences. Economic Activity Codes (OKVED): 72.19 - Other research and development in natural and technical sciences 46.21.11 - Wholesale trade of grain 01.13.6 - Cultivation of mushrooms and truffles 01.11.3 - Cultivation of oilseed crops 46.21.13 - Wholesale trade of oilseeds and oleaginous fruits 01.13.3 - Cultivation of table root and tuber crops with high starch or inulin content 01.19.1 - Cultivation of annual forage crops 77.39.1 - Rental and leasing of other land transport vehicles and equipment 70.22 - Business and management consulting 46.21.19 - Wholesale trade of agricultural raw materials not elsewhere classified

## List of Goods/Services with HS Codes:

1201100000: Soybean seeds - SOYBEAN SEEDS, PRIMORSKAYA 4 VARIETY (Glycine max (L.) Merrill): Original seeds - Super-elite, harvest year 2023, varietal purity 99.9%, germination rate 99%, packaging 2 kg; SOYBEAN SEEDS, PRIMORSKAYA 96 VARIETY (Glycine max (L.) Merrill): Original seeds - Super-elite, harvest year

## Export Countries:

- China

## Company Information:

- **CEO/Head's Full Name:** Emelyanov Aleksey Nikolaevich
- **Contacts:** +7 423 439-23-67, +7 423 439-23-93, +7 423 439-27-10, +7 423 439-27-20, +7 423 439-23-84 Почты: fe.smc\_rf@mail.ru , primniish@mail.ru , fe.smc\_rf@ml.ru , primnii@mail.ru
- **Export Industry:** Agro-Industrial Complex
- **Legal and Physical Address:** 692524, Primorsky Krai, Ussuriysk, Timiryazevsky settlement, Volozhenina street, 30
- **TIN:** 2511032119
- **Website:** <https://fncdv.ru/>
