

LLC «Biotik Lyuks» Muzey Trepanga «Biotic LUXE»

Biotic LUXE LLC (Biotic LUXE) is engaged in researching Russia's natural riches and producing unique products for people who choose only the best for themselves and their loved ones. In search of the source of eternal youth, the company uncovers nature's secrets using cutting-edge scientific achievements and the latest production technologies. "Biotic LUXE" is a recipient of numerous government awards and diplomas.

The company opened the world's only **Sea Cucumber Museum "Biotic LUXE"** in Vladivostok. Vladivostok is the birthplace of this ancient marine echinoderm, which has inhabited the pristine waters of the Sea of Japan for over 500 million years. The sea cucumber is a treasure trove of beneficial substances—a fascinating, unique, and even somewhat cosmic creature.

The unofficial Chinese name for Vladivostok is "Haishenwei," which translates to "Sea Cucumber Bay." In Asia, the sea cucumber is called the "elixir of youth." Its regenerative abilities astonish museum visitors and inspire scientists to conduct research and develop health-beneficial products from sea cucumbers.

Since 2017, the museum has welcomed 650,000 esteemed guests from 26 countries and 69 regions of Russia. It serves as a filming location for programs on federal and international channels. The museum spans 1,050 sq.m., housing 788 exhibits, 5 halls, an 80-seat cinema, and a conference room. It is a venue for cultural and business events. Since 2021, "Biotic LUXE" has held the status of a social enterprise.

Adjacent to the museum is Primorye's first gourmet souvenir supermarket, where visitors can purchase health-conscious souvenirs and gifts in premium packaging at affordable prices from the local brand "Biotic LUXE."

The Sea Cucumber Museum is annually featured at the Eastern Economic Forum (EEF). The company's premium-class products are available on all major Russian e-commerce platforms and many international marketplaces. The museum has its own YouTube channel, an official website in 4 languages, and social media accounts in Russia and China.

Industry focus:

Immune-boosting dietary supplements, health supplements; health-oriented gifts.

List of Goods/Services with HS Codes:
