

LLC "Ratimir"

"Ratimir" today is one of the leading Russian brands of meat products. The rapidly growing holding includes a production complex with a modern quality control system for raw materials and finished products, its own livestock farms, a retail network and logistics facilities.

According to Femark research, the company's products have gained popularity among residents of the region who choose tasty, high-quality and varied food every day. We make sure that our customers have less routine and more freedom for creativity in the kitchen, more time that they can happily spend on what is really important.
