

"AKIBA"

AKIBA - everything for children's playgrounds, sports grounds and landscaping

AKIBA GROUP is a manufacturer of children's play and sports complexes. We began our journey more than 20 years ago - in 2003. People born then are now graduating from universities and raising their own children. All this time, we have also been developing: today our company occupies a leading position in the Far East market.

AKIBA GROUP is not just a supplier, but a reliable partner, a kind and wise friend. We offer thousands of people not only high-quality and safe products, but also an attractive development philosophy based on a healthy lifestyle and strengthening family values.

List of goods
