

LLC «USSURIYSKAYA KARTONNAYA FABRIKA»

The Ussuri cardboard factory was put into operation in 1991 with an annual production of 100 thousand tons of cardboard and 113 million square meters of corrugated packaging.

This is a unique industrial facility, one of the few operating enterprises in Siberia and the Russian Far East producing containerboard and corrugating paper based on waste paper. From recycled materials, cardboard, boxes, pallets, trays, and corrugated paper are produced. The plant uses modern equipment and technologies, as well as many years of experience and guarantees quality.

The factory supplies its corrugated products to enterprises in the food, chemical, construction, medical, and many other industries of the Far Eastern Federal District of the Russian Federation. The enterprise regularly exports roll products of corrugating paper and cardboard to major ports in China (Ningbo, Shanghai, Shekou). By working with us, you contribute to forest conservation, as our factory operates on recycled materials and processes over 4,000 tons of waste paper.

Industry: production of corrugated paper and cardboard, paper and cardboard packaging.

List of Goods/Services with HS Codes:

4805240000 – cardboard for flat layer of corrugated board (testliner)

4805199000 – fluting paper (fluting)

Export Countries:

- China
