

## LLC «Russkiy krab»

**Russian Crab LLC** is the largest crab-fishing company in the Far East and one of the largest in Russia. The company holds rights to harvest approximately 12,000 tons of crab annually, representing the largest share (18%) of quotas in the Far Eastern basin. The crab fishing quota package belongs to Russian Crab Group until 2035 based on auction results. The company harvests Kamchatka crab, blue crab, equal-spine crab, opilio and Baird's snow crab, and hairy quadrangular crab in the Okhotsk, Bering, and Japan Seas.

The company began utilizing quotas acquired at the 2019 auction in 2020. It successfully manages the largest crab quota package in the Far East, achieving over 99% quota utilization in 2020–2022. The team consists of professionals with modern and progressive business approaches, experienced in the fishing industry, shipbuilding, food production, and other key economic sectors. This combination of expertise blends decades of crab fishing experience with innovative business technologies.

Russian Crab LLC aims to become an industry leader by maximizing quota efficiency and ensuring the highest product quality. Achieving this goal requires continuous improvement. The company is building a modern fleet, implementing new production management tools, and expanding professional knowledge. Today, the group employs over 1,500 people, mostly crew members—courageous, strong individuals with unique crab fishing experience. Among its values is responsible stewardship of aquatic bioresources. Only rational and sustainable fishing preserves marine biodiversity and ensures the future of the crab industry. Producing food at sea from fresh raw materials maximizes the nutritional value of crab meat. Expanding the geography of premium Russian crab consumption is essential. High-quality, legally harvested, carefully preserved, and delivered in excellent condition, Russian crab deserves its status as a gourmet delicacy. Thanks to its superior quality, the product is in demand across diverse culinary cultures.

### List of Goods/Services with HS Codes:

---

0306141000 - Cooked-frozen Kamchatka crab legs
