

LLC «Resource VL»

The research and production company **VladSintez (Resurs VL LLC)** has produced chemicals since 2015—ActiveBlue SCR fluid (AdBlue analog), antifreezes, heat-transfer fluids, and windshield washer fluids. In 2022, it launched a household chemicals line. With its own production, responsibility, and professionalism, the company has gained a strong market position in Primorsky Krai and the Far East. Daily capacity reaches 50 tons. ActiveBlue is exported to South Korea, with plans to expand to Japan.

List of Goods/Services with HS Codes:

3102109000 – SCR system fluid for diesel engines AUS32 and AUS 40 of "ActiveBlue" brand
AUS32 - used in trucks and passenger vehicles of Euro 4/Euro 5/Euro 6 environmental standards, used as additional working fluid for diesel engines equipped with SCR system, actively reduces nitrogen oxide emissions from diesel transport.

AUS40 - widely used on marine vessels, helps neutralize harmful emissions from industrial facilities equipped with DeNOx, COdiNOx systems; these complexes use SCR (Selective Catalytic Reduction), SNCR (Selective Non-Catalytic Reduction) or SNCR/SCR (hybrid technology).

3402500000 – summer/winter windshield washer fluids of STANDART and TOYAMA brands.

3820000000 - coolant liquids (antifreeze) of STANDART and TOYAMA brands.

Export Countries:

- Japan
- South Korea (Republic of Korea)
