

## LLC "FORESTGRAND"

LLC "ForestGrand" is located in Spassk-Dalny, Primorsky Krai, founded in 2018, and is a comprehensive wood-processing enterprise engaged in logging, production of round timber, veneer, and lumber from hardwood, softwood, and coniferous species.

The forest area exceeds 500,000 hectares, allowing the harvesting of 300,000 m<sup>3</sup> of timber annually. Wood processing includes a sawmill section: 11 modern lines (made in China), Artiglio lines (made in Italy), and 4 veneer production lines. This enables processing species such as oak, ash, linden, birch, elm, and spruce, producing 300 m<sup>3</sup> of lumber per shift.

With 40 drying chambers, we can produce up to 3,000 m<sup>3</sup> of dried lumber.

We sell and deliver our products throughout Russia, but 80% is exported to China, South Korea, Kazakhstan, Georgia, and Belarus.

### List of Goods/Services with HS Codes:

---

**4403950000 - Other birch (betula spp.) lumber, with smallest cross-sectional dimension of 15 cm or more, not treated, with or without bark or sapwood or roughly squared or not; 4403970002 - Other aspen (populus adenopoda, populus davidiana, populus grandidentata, populus sieboldii, populus tremula, populus tremuloides) lumber, not treated, with or without bark or sapwood or roughly squared or not; 4403990009 - Other lumber not treated, with or without bark or sapwood or roughly squared or not; 4407129901 - Coniferous lumber of fir (abies spp.) and spruce (picea spp.), obtained by sawing or splitting lengthwise, planing or peeling; with or without end joints, over 6 mm thick, moisture content not exceeding 22%; 4407919001 - Oak (quercus spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling; with or without end joints, over 6 mm thick, moisture content not exceeding 22%; 4407919006 - Oak (quercus spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling; with or without end joints, with two or more flat-parallel surfaces obtained by sawing, over 6 mm thick, other; 4407939901 - Maple (acer spp) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, over 6 mm thick; 4407939906 - Maple (acer spp) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, with two or more flat-parallel surfaces obtained by sawing, over 6 mm thick, other; 4407959901 - Ash (fraxinus spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, over 6 mm thick; 4407959906 - Ash (fraxinus spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, with two or more flat-parallel surfaces obtained by sawing, over 6 mm thick, other; 4407969002 - Birch (betula spp.) lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, over 6 mm thick, moisture content not exceeding 22%, other; 4407999005 - Other species lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, over 6 mm thick, moisture content not exceeding 22%, other; 4407999007 - Other species lumber, obtained by sawing or splitting lengthwise, planing or peeling, with or without end joints, with two or more flat-parallel surfaces obtained by sawing, over 6 mm thick, other; 4409299200 - Other hardwood lumber: strips, moldings and friezes for parquet or wood floor covering, unassembled.**
