

STANDART

STANDART is a brand specializing in the production of high-quality windshield washer fluids and cooling agents, such as antifreezes. Products under this brand are aimed at consumers who value reliability, efficiency, and compliance with strict safety and environmental standards.

STANDART brand features:

High quality and reliability: STANDART products are created using modern technologies and raw materials, ensuring stable performance of automotive systems in various climatic conditions.

Wide range:

Windshield washer fluids: Designed for all seasons, they have effective cleaning properties, prevent freezing at low temperatures, and leave no streaks on glass.

Antifreezes and coolants: Feature a stable formula that ensures reliable engine protection against overheating and freezing, prevents corrosion, and reduces wear in cooling systems.

Affordable price: The STANDART brand offers products that combine excellent quality at a competitive price, making them attractive to a wide range of consumers.

Eco-friendliness and safety: All STANDART fluids are developed in compliance with international safety standards and minimize environmental impact.

Universal application: Suitable for most car brands, both passenger and commercial, as well as for use in various climate zones.

Brand image:

STANDART is positioned as a practical and reliable choice for car owners looking for products that ensure long-lasting vehicle performance in any weather conditions.
