

## CJSC "STS Teknovud"

The official founding date of CJSC "STS Teknovud" is June 19, 1997.

The company's primary product is kudabashira, glued laminated timber for traditional Japanese house construction. Since the products are exported to Japan, the factory has received JAS (Japan Agricultural Standard) certification from the Japanese Ministry of Agriculture, Forestry, and Fisheries.

For construction timber requiring high strength, Primorsky spruce is ideally suited.

The production process is structured as follows: after preliminary rough sorting by diameter, the logs are fed into a Valon Kone debarking machine (Finland) and transferred to the sawmill, which is fully equipped by CKS.

### List of Goods/Services with HS Codes:

- 16.10.1 Manufacture of sawn timber, except profiled, over 6 mm thick; manufacture of untreated railway and tramway sleepers from wood
- 16.10.9 Provision of wood impregnation services
- 16.23 Manufacture of other wooden construction structures and joinery
- 35.11.1 Electricity generation by thermal power plants, including power plant maintenance

### Export Countries:

- China

### Company Information:

- **CEO/Head's Full Name:** Vikhrov Andrey Aleksandrovich
- **Contacts:** office@sts-technowood.ru
- **Export Industry:** Forestry Industry
- **Legal and Physical Address:** 692152, Primorsky Krai, TERNEYSKY DISTRICT, PGT PLASTUN
- **TIN:** 2528003758
- **Website:** <https://technowood.su/>
