

## LLC "GK Movement"

Group of Companies "MOTION International" (GC "Dvizhenie") was founded in 2009 in Vladivostok — the largest city and port in the Russian Far East.

Over this time, GC "Dvizhenie" has become the largest distributor of food products and other FMCG goods in the Far Eastern Federal District, and for import contracts — across the entire Russian Federation.

GC "Dvizhenie" has direct contracts with major Russian and foreign manufacturers.

GC "Dvizhenie" includes a highly qualified Foreign Economic Activity Department, through which the company conducts export and import operations.

We are official partners and distributors of Russian enterprises — the production association "Fitness Food", the confectionery association "Sladial", and the coffee factory "KO&FE".

GC "Dvizhenie" is the official representative and largest importer in the Russian Federation for the UCC coffee concern (Japan), beverage manufacturers Sangaria, Hata, Tominaga (Japan), the major food conglomerate Vifon (Vietnam), coffee and confectionery producer Mayora Group (Indonesia), and one of the world leaders in battery production, the GP concern (Hong Kong).

Additionally, the company owns the Haruko brand of paper products, which it also manufactures at factories in the People's Republic of China.
