

LLC «Transstroyresurs»

The company has been operating in the food market since 2018.

Since March 2019, we have organized the production of packaged rice in 800g packs under the "TSR" brand.

In October 2019, we introduced additional equipment and began production in 2.5kg packaging.

Since March 2020, we have launched rice production in boilable bags with 400g packaging (5 pieces of 80g each).

In December 2020, our product range expanded with new rice varieties: Heilongjiang black rice in 400g packs.

In 2023, we started producing buckwheat (supplied by TM "Tselina" from Barnaul) in boilable 400g bags, classic 800g packs, and 2.5kg formats.

In 2024, we began production of wheat bulgur (supplied by TM "Yanina" from Rostov) in 400g boilable bags and 400g standard packs.

In 2025, we plan to expand our line with imported rice varieties in 450g packs.
